PLACE OF PROMISE
Permanent Exhibition

This permanent exhibition showcases San Diego history from 10,000 BCE up to the 1915 Panama-California Exposition. The San Diego region has been home to native peoples like the Kumeyaay for thousands of years; they lived in complex societies and established trade with other tribes. Since Juan Rodriguez Cabrillo’s European contact in 1542, San Diego has undergone extensive transformations as the Spanish, Mexican, and American cultures have all shaped our region.
San Diego Before Statehood

Journey back in time and tread in the footsteps of the padres, soldiers, and settlers who established the first mission and presidio in Alta California. Through a series of educator led activities, explore a section of Presidio Park to learn about the plaza, stables, chapel, and commander’s house that lie protected underground today.

Inside the Serra Museum, investigate artifacts that reveal the daily life of the Kumeyaay, the Spanish, and the Mexican inhabitants of early California. “Meet” historic figures by dressing in the costumes of some notable San Diegans.

Grade levels: Elementary, Middle  |  Program Length: 2 Hours

Maximum Number of Students: Groups over 30 can only be accommodated if the teacher facilitates the outdoor activities. All necessary resources, materials, and information will be provided.

Pre-Visit activities also included.
One of our museum educators will come to your classroom and facilitate a memorable hands-on program using photographs, artifacts, and other primary sources from the History Center’s collection.
